## MISCELLANEOUS.

## Autumn Weddings.

It is not difficult to select from our wares gifts of intrinsic value, that are in themselves an expression of congratulation and esteem.

We refer to the handwork of the modern silversmith, whose artistic productions in his precious metal are treasured by every bride; to the rich specimens of brilliant cut glass, the equal of any make; and to the jewelry, beautifully wrought in gold and set with gems.

## TO ASHES.

**Negro Burned at Stake at Eclectic, Ala.**

**Attempted Assault on White Woman.**

**Confronted By Victim He Confessed His Crime.**

**Was Bound to Stake By Chains.**

**Pine Knots Piled About Him and Set on Fire.**

Wetumpka, Ala., October 2.—Winfield Townsend, alias Floyd, a negro, was burned at the stake in the little town of Eclectic, 15 miles from this place, a half hour after midnight this morning. The crime with which he was charged was an attempted assault upon Mrs. Lennie Harrington, and her husband set fire to the pile which reduced Townsend's body to ashes.

Yesterday afternoon about 1 o'clock, the negro, a nephew of the negro Flood, who was hung in the Wetumpka jail week before last for attempted assault, attempted to outrage Mrs. Harrington. The woman's screams were heard by another negro who was passing along the road at the time. He ran to the house in time to see the negro escape. As soon as Mrs. Harrington was brought back to consciousness he gave the alarm.

The news spread rapidly. All the stores in Eclectic were closed, all the guns and saw mills shut down; the people left their wagons in the road and their plows in the field and gathered for a pursuit of the negro. The crowd divided, some scouring the woods near the scene of the crime and others went to the penitentiary for blood hounds. The dogs were not brought to the scene until nearly dark. They were taken to where the negro's tracks disappeared and an exciting chase ensued. The dogs stopped at a tree on the outskirts of the town. The crowd coming up soon discovered the negro sitting on a limb. He was brought down at once and taken to the scene of his crime. There he was confronted by his victim who positively identified him. The negro was taken to the edge of the village and surrounded by the mob. The preparations for death were quickly made. A stake was prepared and the negro was bound to it with chains. Pine knots were piled about him and the flames were fired by the mob. The crowd looked on, deaf to the victim's loud cries for mercy and in an hour he was reduced to ashes.

Townsend, before being bound, confessed the crime, and said he was also implicated with Alexander Floyd, who was hung a couple of weeks ago for an attempted assault on Miss Kate Pearson in the attempt at that time. He said he and Floyd had planned for other crimes of like character, but that Floyd's being hung put a stop to them.

AN IMPROMPTU DUEL.

Tuscaloosa, Ala., October 2.—Rodney Lowry, nephew of ex-Gov. Lowry of Mississippi, fought a duel this morning at Moundsville, Ala., 15 miles from here, with W. H. White, section foreman. Both, it is believed, were fatally wounded.

Lowry is the agent for the railroad company at Moundsville. This morning he had some words with Section Foreman White over the moving of a car of cotton seed. White, it is alleged, threatened Lowry, and Lowry procured a pistol from his office. White was already armed and as Lowry returned, to the platform, the men began shooting at each other advancing as they fired.

Lowry was shot four times, in the leg, right side, right forearm and chest. Each man fired five times, but Lowry's

last ball was the only one that struck White. This last shot was fired within five feet of him and struck White in the abdomen. Lowry, with his right forearm shot, then clubbed White into insensibility with the butt end of his pistol. White has a wife and three children; Lowry is 33 years old and single. Both men are in a critical condition.

## WAVE STRIKES CALAIS.

**Officers Determine to Enforce Prohibitory Law.**

Calais, October 2.—The recent visit of the Women's Christian Temperance Union seems to be bearing fruit quickly. Last night the board of aldermen passed a resolution declaring that the prohibitory law should be strictly enforced and that the presiding justice of the next term of court be notified that Calais expects a strict construction of the law with the extreme penalty for every conviction for its violation. This morning the police were ordered to close every drinking place in this city by Wednesday next, to cease smoking on the streets, riding back and forth on the electric, loading, etc. It is possible that St. Stephen, N. B., just across from Calais will enforce similar orders.

**AUGUSTA MAN INDICTED FOR MURDER.**

Providence, October 2.—Charles T. McLaughlin, formerly of Augusta, Me., was indicted by the grand jury today on a charge of murdering Charles Drape, an insane patient at the state hospital. The indictment alleges that while drunk McLaughlin punched and jumped upon Drape, causing his death. The prisoner was formerly keeper at the institution.

## POSTED AS LOST.

St. Johns, N. F., October 2.—Four more fishing vessels with crews aggregating 35 men, were posted today as having been lost during the great gale of September 19. This is likely to complete the list of local disasters.

## THE WEATHER.

Boston, October 2.—Local forecast: Fair weather Wednesday and probably Thursday; fresh, easterly winds.

Washington, October 2.—Forecast for Wednesday and Thursday: New England: Fair Wednesday and Thursday; warmer in the interior Wednesday; light to fresh northeasterly winds, becoming brisk off the southern coast.

The great trouble in trying to sell what are called patent medicines is that so many claims have been made for them that people don't or won't believe what honest makers say.

We have been telling our story sixty years. Did we ever deceive you once? If we make any statement that isn't so, we will stand the loss. Go to the druggist and get your money back.

Here's an example. Ayer's Cherry Pectoral is a good cure for a cough that comes from a cold. Your cough, if you have one, may not come from a cold; your doctor will tell you about that.

It is a straight medicine with sixty years of cures back of it. There isn't a ghost of the ordinary patent thing about it.

**Immense Parade of Striking Miners at Wilkesbarre Yesterday.**

**President Mitchell Makes a Non-Committal Speech.**

**Doesn't Say Whether Advance Offered Should Be Accepted.**

**Convention of Delegates From Union's to Act on Matter.**

Philadelphia, October 2.—No break has yet occurred in the ranks of the striking mine workers though additional notices of the offer of an increase of ten per cent in wages were posted throughout the region today. In fact there were many indications today of an intent on the part of the strikers to insist on other concessions and to also remain out until the operators give recognition to their national organization.

The feature of the day was the parade and the mass meeting of mine workers at Wilkesbarre arranged with the object of demonstrating the strength of the United Mine Workers. A conservative estimate places the number of strikers in the procession at 15,000 and the day was generally given up as a holiday by the people of Wilkesbarre and other Luzerne county towns. The mass meeting was addressed by President Mitchell and other officers of the miners' organization.

In his speech Mr. Mitchell did not intimate anything as to the probability of an early convention of miners, and after the meeting when questioned on that subject, he said that not a local union had requested the calling of a convention. A significant move in this direction, however, developed tonight at Shenandoah where all the local branches of the United Mine Workers held meetings and selected delegates to a convention to be called later by President Mitchell. This is the first announcement of the selection of convention delegates. The entire region was quiet today and very few mines were in operation.

## WILKESBARRE MEETING.

**15,000 Miners Paraded And Heard Speech By Pres. Mitchell.**

Wilkesbarre, Pa., October 2.—The parade and mass meeting of the striking miners in this city today was the greatest labor demonstration ever held in North-eastern Pennsylvania. The weather was favorable for a large turnout.

President Mitchell, and party, arrived from Hazleton, shortly after one o'clock and were met at the depot by a large and enthusiastic crowd. The visitors were given a cheer and then driven to their hotel.

The parade, headed by President Mitchell and the officers of the national executive board, started a little after two o'clock and it required an hour and twenty minutes to pass a given point. It is estimated that there were fully 15,000 men and breaker boys in line. The great bulk of the parade was made up of stalwart men. As a rule they were well dressed and some of them from their appearance might be taken for a body of farmers. The music was furnished by about 40 brass bands and drum corps. Many banners and transparencies were carried by the men. Among the most noticeable were these:

"We want our dinner pails filled with substantial food not coal barons' taffy."  
"We are fighting a cause that is just and right."  
"Stand by President Mitchell and the union."  
"Our union must be recognized."  
"We will be no longer slaves."  
"200 pounds for a ton."  
"We want two weeks' pay."  
The breaker boys carried banners which read:  
"We need schooling, but must work."  
"Save us from the whim of the sheriff and deputy."  
"Down with oppression; we will stand by Mitchell."

The parade passed over the principal streets of the city and thousands of people lined the sidewalks. The men from Pittston had a float with four men representing "Coal barons." They were drinking what purported to be champagne. Directly following was a float with men dining on bread and water. A stretcher was carried containing a dummy representing a miner who had just lost his life in a mine.

President Mitchell reviewed the great army on the river common. He was generously applauded by the marchers. Business was at a standstill in the city all the afternoon. The superintendents of the coal companies and

their clerks viewed the parade from their office buildings. One coal man said it was a very creditable demonstration. It was after 4 o'clock when the last of the marchers swept past President Mitchell. Then he and his colleagues were driven to West Side park, where the big mass meeting was held. For several hours a crowd had been gathering there and it was estimated that nearly 30,000 persons were massed in front of the stand when the labor president began to speak. The reception he got from the crowd was most enthusiastic.

T. D. Nicholls, president of district No. 1, comprising the Lackawanna and Wyoming regions, was the chairman of the meeting. After George P. Russell of Indiana, member of the national executive board and the Rev. P. J. Dunn of Wilkesbarre, made short addresses, President Mitchell was introduced. He said:

"Fellow workmen—A man would indeed be devoid of feeling if he were not proud to have the opportunity to stand before a multitude like this who are making a fight for something they believe to be just. I am proud to know that you are composed of coal miners and their families. I am proud to know that you command in this fight the respect of the clergymen, that you have the sympathy of the public and that the great American press has said with one voice that your cause is a righteous one."

"The greatest strike in the history of the world is drawing to a close. Already the great coal carrying railroads have agreed to increase your wages ten per cent which is a great victory in itself. True it is not enough, it does not satisfy us but the time is not far distant when the anthracite coal miners will receive as much for their labor as any other class of workers in the world."

"This strike shall not be declared off by me. It shall not be ended until a convention of miners shall so decide. Every union and every colliery will be asked to send one or more delegates to a convention to determine the question for themselves."

Mr. Mitchell then reviewed briefly the struggles of the miners during the past forty years and said that the winners cannot expect to have all the evils which have been heaped upon them during the last half century of unorganized labor righted as once. Continuing Mr. Mitchell said he was confident of victory in the end. He urged the miners to stand together and asked that no man return to the mines until the victory is complete.

The national president was followed by Fred Fisher of Ohio; Benjamin James of Pennsylvania, both members of the executive board and "Mother Mary Jones." After the meeting President Mitchell was driven through cheering crowds to his hotel, where he will remain until eight o'clock tomorrow morning when he will return to Hazleton.

President Mitchell's address so far as his future move on the part of the labor leaders is concerned was a disappointment. He intimated strongly last night that he would define the position of the union today on the basis of a cent concession. The miners do so has caused the impression to go out that he is still undecided what should be done.

## RECOGNITION THE THING WANTED

Wilkesbarre, October 2.—The miners of the Wyoming valley did not respond to the notices posted by the companies last night offering a ten per cent increase in wages. The collieries are all idle this morning as usual, the only exception being the mine of the West End Coal company at Macaery.

Mr. Palmer, the chairman of the press committee of the United Mine Workers council here, told the Associated Press representative today that the offer made by the operators would not be accepted.

"We are not after dollars, and cents so much as we are after principle. We want recognition, that is the main thing, and until we get it I am afraid there will be no settlement."

## MERCHANTS' CARNIVAL AT ELLSWORTH.

Ellsworth, October 2.—The three days' Merchants' Carnival and Hancock County fair, opened here today.

The decorations are the most elaborate the city has ever known, every business house and many residences being smothered with bunting. The night illumination of Main street with colored incandescents lights is one of the features.

The carnival opened this morning with band concerts, a horse race for juvenile teams, a cake walk for the champion of the state, running races and sports. This evening there was a band concert and ball at Hancock hall.

Wednesday is to be the big day of the

arrival. In the morning there will be a parade of firemen, civic organizations and trades exhibitions.

The exhibition of stock and produce at the fair this year is large. The vegetable display is not so good as usual, as the past summer has been very dry. The fruit display is large and of excellent quality. There is a good exhibition of live stock. The poultry display is larger than that at the State fair.

## AT BRYAN'S HOME.

**Gov. Roosevelt Given Magnificent Reception By Citizens of Lincoln, Neb.**

Lincoln, Neb., October 2.—Governor Roosevelt was accorded a magnificent reception this afternoon by the citizens of Lincoln. Nothing equal to it has yet been seen during the progress of the Governor's journey through the west.

Arriving at the capital house square Roosevelt was conducted to a reviewing stand, before which the long procession passed in review, occupying more than an hour. There were many unique and amusing features in the parade.

After the procession had passed in review, Governor Roosevelt was conducted to a speaker's stand, where he spoke for three-quarters of an hour, going over the same ground in his remarks as he has travelled over before upon the issue of expansion, militarism, imperialism and patriotism. At the conclusion of his speech on his way from the stand to his carriage, he was fairly mobbed by a wildly eager crowd who wished to shake his hand or to get a word or look of recognition.

The evening meeting at Plattsmouth was also a great success in point of numbers and interest. The meeting closed the day's itinerary.

## RATHBONE PRINCIPAL.

**Concocted Whole Scheme of Cuban Post Office Embezzlement.**

Havana, October 2.—The Havana Post referring today to the postoffice frauds, made the following statement:

"We have been quietly and on our own account working up the case against Mr. Estes G. Rathbone, and we now believe that he will be charged with having concocted the whole scheme of embezzlement. It may even be shown that he secured for himself something between \$37,000 and \$38,000."

Mr. Ernest Lee Conant, special counsel of the government in the matter when asked to confirm or deny the assertions of the Post replied that he would not deny or confirm them.

He said, however, that the investigations had not been confined to a mere revision of accounts.

At today's meeting of the Havana municipal council, no vote was taken on the question of accepting the proposed plans for sewerage and paving. The subject will be further considered at the next session.

## BANGOR FESTIVAL.

**The Principals Given Great Receptions by Big Audiences.**

Bangor, October 2.—The concerts of the second day of the Maine Music Festival were largely attended, many people coming from the eastern and northern portions of the state. At the afternoon concert 3000 people greeted Signor Campanari on his first appearance in this city, and he was given a great ovation. He was heard in three numbers and was encored again and again. In the evening Mrs. Schumann-Heink scored a triumph, the ovation given her being unlike any seen here since Mme. Sembrich sang last year. She sang beautifully and the audience of 3700 people was so enthusiastic that she sang one little song for an encore, three times. The orchestral and choral work was excellent and the cantata "Fair Ellen," in which Miss Sybil Sammis and L. B. Cain appeared in the leading roles, was given an interesting rendition.

## MASSACHUSETTS DEMOCRATIC TICKET.

Boston, October 2.—At the Democratic state convention here today the following ticket was nominated by acclamation:

For Governor—Robert Treat Paine, Jr., of Boston.

For Lieutenant Governor—John B. O'Donnell of Northampton.

For Presidential Electors—Hon. Thomas Wentworth Higginson of Cambridge, Hon. Thomas J. Gargan of Boston.

For Secretary of State—Gen. Luther Stearns of Hingham.

For Treasurer—Joseph L. Chalfoux of Lowell.

For Auditor—E. Gerry Brown of Brockton.

For Attorney General—John C. Crosby of Pittsfield.

## CONGRESSIONAL NOMINATIONS.

Boston, October 2.—Senator Charles T. Wilt, of East Boston was nominated for Congress by acclamation at the ninth congressional district Republican convention held tonight.

Dr. George B. Pierce of Milton was nominated for Congress in the tenth district at the Republican convention at Union hall tonight.

## NEW MILL TO BE BUILT AT MADISON.

Madison, October 2.—Ten or a dozen engineers are now at Madison surveying for the dam and paper mill to be built as soon as plans can be completed. It is hoped work upon the dam can be commenced this fall and the paper mill early in the spring.

## YOUTSEY ON TRIAL.

Georgetown, Ky., October 2.—Henry Youtsey, a stenographer in the office of Gov. Taylor during the latter's incumbency, was called for trial today in Judge Campbell's court, on the charge of being a principal in the shooting of J. G. Gobel.

## BRYAN MADE 18 SPEECHES.

Lacrosse, Wis., October 2.—When W. J. Bryan concluded his last speech here tonight, he had made 18 addresses and had covered about 15 hours of time during the day.

Beginning at 8 o'clock in the morning he talked at intervals until 11 o'clock tonight, putting in fully six hours of speaking. His first speech was made at Shakopee and after that appearance he spoke in succession at Jordan, Belle Plaine, Henderson, St. Peter, Mankato, Janesville, Waseca, Watonska, Dodge

Centre, Kasson, Rochester, St. Charles, Winona, and three speeches here tonight.

The region traversed today is a rich agricultural section and Mr. Bryan's remarks were addressed especially to farmers, the trust question receiving even a greater share of attention than usual.

## REPUBLICAN CLAIM.

266 Votes Said To Be Assured For McKinley.

New York, October 2.—In a statement issued from Republican headquarters through Committee Manley, the national committee claims 266 votes certain in the electoral college for Mr. McKinley, 113 for Mr. Bryan and 54 were put down as in doubt. The states conceded to Bryan are Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, the Carolinas, Texas and Virginia. In the doubtful column is put Colorado, Idaho, Kentucky, Missouri, Montana, Nevada, Nebraska and Utah. Everything else is put down for McKinley, but Indiana which, with its 15 votes, is admitted to be in doubt.

When shown this Republican claim, Mr. Richardson for the Democrats, characterized it as only "so much boasting." He added that the Democrats also had gold, which was very different from the Republican one, but that it would not be made public.

# FULL AGREEMENT

## Between Powers On China In Sight.

### On Basis of Sec'y Hay's Note.

#### Russia And The United States In Complete Accord.

#### Germany Also Falls In to Line.

#### The Russian Legation Departs For Tien Tsin.

Washington, October 2.—Favorable news has reached Washington from the European chancelleries, indicating that a complete agreement as to China is within sight. The agreement will be on the basis of the propositions laid down by Secretary Hay in his note of July 3rd and the subsequent notes treating of that subject. The accord of Russia with the United States is more complete than was anticipated at first and reports show that all of the European nations probably are placing themselves in position to take advantage of the opening made by the United States and soon will be ready to begin negotiations for a settlement with the Chinese government. The Russians already have given notice of such purpose and while the text of the French note on this subject referred to in today's press despatches has not reached the state department, the officials are satisfied that this is correctly reported and that France, like Russia, is ready to negotiate at once.

As for Germany, either the position of that government has been misunderstood or it has sustained a change of mind. Possibly the former is the case, but, however, that may be, it is quite certain from the advice which have reached Washington today that the German government upon careful inspection of the plans for a settlement projected by the United States, finds therein nothing inconsistent with the German aspirations. Then it may be expected that Germany, too, will be prepared soon to join in this common movement toward a settlement. It may be stated that, altogether, the prospects of an adjustment of the Chinese difficulty without resort to formal war are very much brighter than they were one week ago.

#### WILLIAM TO KWANG SU.

Chinese Emperor Informed that Lih-tsun Don't Settle for Dead Ambassadors.

Berlin, October 2.—The following is the text of the Chinese Emperor's message to Emperor William of Germany: "Greeting.—That your Majesty's minister has fallen a victim to the rising which suddenly broke out in China without our officials being able to prevent it, whereby our friendly relations were disturbed, is deeply deplored and regretted. By decree we order that sacrifice be made on an altar for the deceased, and Chief Secretary Kun Yang has been instructed to pour libations on the altar. The commercial representatives of the northern and southern ports have been ordered to take the needful measures concerning the conveyance of the coffin of the deceased. When it reaches Germany a second offering shall be made on an altar.

"Germany has always maintained the friendly relations with China. We therefore entertain the hope that your Majesty will renounce all resentment so that peace may be arranged as soon as possible and that universal harmony be rendered possible for all time. This is our most anxious hope and our most ardent wish."

Emperor William replied September 30 as follows: "To the Emperor of China: "I, the German Emperor, have received the telegram of your Majesty, the Emperor of China. I have observed with satisfaction that your Majesty is anxious to explain, according to the custom and precept of your religion, the cause of the murder of my minister which set at naught all civilization. Yet, as the German Emperor and a Christian, I cannot regard that abominable crime as atoned for by a libation. Beside my murdered minister, there have gone before the throne of God a large number of our brethren of Christian faith, bishops and missionaries, women and children, who, for the sake of their faith, which is also mine, died the violent death of martyrs and are accusers of your Majesty. Do the

illusions commanded by your Majesty suffice for all those innocent ones? do not make your Majesty personally responsible for the outrage against the legations, which are held inviolable among all nations, nor for the grievous wrongs done to many nations and faiths, and to the subjects of your Majesty of my Christian belief. But, the advisers of your Majesty's throne and the officials on whose heads rests the blood guilt of a crime which kills all Christian nations with horror, must expiate their abominable deed. When your Majesty brings them to the punishment they have deserved, that I will regard as an execution which will satisfy the nations of Christendom.

"If your Majesty will use your imperial power for this purpose excepting to that end the support of all the injured nations, I, for my part, declare myself agreed on that point. I should also gladly welcome the return of your Majesty to Peking. For this, my general, Field Marshal Von Waldersee, will be instructed not only to receive your Majesty with honors due your rank, but he will also afford your Majesty the military protection you may desire and which you may need against the rebels.

"I also long for peace which makes good wrongs done and which offers to all foreigners in China security for life and property and, above all, for the free service of their religion. (Signed) William I. R."

#### BOXERS DISPERSED.

German Forces Encounter Force 8 South of Imperial Deer Park.

(Copyright, 1900, the Associated Press.) Peking, Wednesday, September 26.—Via Taku, Saturday, September 30, and Shanghai, October 2.—The German column consisting of 1700 men under Gen. Von Hoespner encountered a small Boxer force south of the Imperial deer park yesterday and killed 40 of the Chinese during a fight which followed. The Chinese were put to flight and scattered. Four Germans were wounded.

Chi Hsin, a member of the Tsung Li Yamen and noted anti-foreign statesman and a patron of the Boxers was captured in the Imperial city by the Japanese. His fate has not been determined upon.

Peking, September 29, via Shanghai, October 2.—The object of yesterday's movement south of the Imperial hunting park was to punish the Chinese for firing on a German patrol. Gen. Von Hoespner's force, which included a battery, burned several villages where arms were found.

The German commander then proceeded to Nan Hung Nien and dispersed a body of Boxers outside the town. Half were armed with rifles and the others with pikes and swords. Some of his men advanced to within 20 yards of the German rifles, performing Boxer exercises and were mowed down.

Taku, September 29.—The expedition to Pao T'ing Fu has been postponed and the start will not be made until October 6. General Gaslee and the German garrison will remain at Peking and Tien Tsin columns respectively.

The Russians have occupied Tong Shan without opposition. The New South Wales contingent of the British troops will winter in Peking.

#### LI HUNG WILL NEGOTIATE AT TIEN Tsin.

Tien Tsin, September 29, via Taku, September 29, via Shanghai, October 2.—(Copyright, 1900, the Associated Press.) Li Hung Chang has abandoned his decision to proceed to Peking and will, it is announced, begin negotiations with the Russian minister to China, M. Deglières, upon the latter's arrival at Tien Tsin. General Chaffee has designated the ninth infantry, the third squadron of the sixth cavalry and battery F to remain at Peking. He estimates that it will take a week to get the American troops out of China.

#### FRENCH NOTE CONFIRMED.

Paris, October 2.—An official of the French foreign office formally confirmed today the accuracy of the detail of France's note to the powers on the Chinese question, as telegraphed from Vienna.

In this note France agrees that it is necessary to obtain satisfaction for the anti-foreign attack, but suggests that negotiations should begin immediately on the other questions at issue.

#### MISSIONARIES MURDERED.

Washington, October 2.—Mr. Goodnow, consul general of the United States at Shanghai, reports to the state department in his despatch of August 25, 1900, just received, the murder of two American missionaries Miss Hattie J. Rice and Miss Mary E. Huston, both of the China Inland Mission, and stationed at Lu Cheng, in Shanai province.

It is understood that a sister of Miss Rice resides at Hartford, Conn., and that Miss Huston's mother resides at Mobile, Ala.

#### A SHANGHAI RUMOR.

London, October 3.—4.30 a. m.—There is no fresh news from China today except a Shanghai rumor that the allies have captured Shan Hai Kwan, and a report from Canton that mission property has been destroyed at Kun Mung on the West river.

#### GERMANY LIKES IT.

Berlin, October 2.—The German papers print the alleged French note to the powers respecting the settlement of the Chinese question, and all comment upon it in the most favorable terms. The Freisinnige Zeitung says: "If the note is genuine harmony, between the powers is at last assured."

## OPERATED IN PORTLAND.

### Photographers Arrested In Mass.

#### Are Charged With Setting Fire For Insurance.

#### One Was Burned Out Here Last Winter.

#### Probable Explanation of Foster-Avery Fire of Feb. 13.

Marlboro, Mass., October 2.—Fire Marshal Whitcomb held an investigation at his office in Boston today of the fire that took place in a photographic gallery here on the morning of September 19, and as a result he placed under arrest George Critcherson, Fred Roberts and Charles Hammond, on the charge of setting the fire. The men were brought here tonight by State Officer Dunham and Assistant Fire Marshal Scott of Milford. The police say that Critcherson broke down when questioned by the marshal and confessed to setting the fire. It is said the method pursued by these men was for Critcherson to go to a town, open a photograph gallery, he being an expert photographer, then sell out to the other two after the property had been well insured. Then Critcherson, it is said, would ostensibly leave town and in a short time the building would be gutted by fire. It is claimed that these men worked in this manner in Portland, Me., and had planned to do the same in Winthrop. Mr. Critcherson is over 60 years of age and is said to belong in Portland. The other men are younger and their homes are not known, although they are believed to have come from somewhere in Maine.

The men will be arraigned in court tomorrow afternoon.

Fred Roberts, one of the men arrested at Marlboro, is known in this city, being formerly a member of the firm of Merrow & Roberts, who had a photographic gallery in the Foster & Avery building on Congress street. On the morning of February 13 of this year a fire broke out in the Foster & Avery building. The fire originated in the apartment of Merrow & Roberts, though just where and how it caught were never satisfactorily explained. The damage to the occupants of the building was considerable. Merrow & Roberts valued their property at \$5,000 and it was stated at the time that their insurance was heavy, though the amount was not given.

It could not be learned this morning whether Critcherson established the saloon and sold it to Merrow & Roberts. Critcherson's name does not appear in the directory and no one at the police station had ever heard of his being in this city.

There was no public knowledge at the time that Roberts & Merrow were suspected of setting the fire.

#### ENGLISH ELECTIONS.

Mr. Labouchere Among Those To Be Returned Yesterday.

London, October 2.—3.30 a. m.—Yesterday's pollings in the parliamentary general election leave the state of parties at present as follows: Ministerialists, 178; Liberals, 35; Nationalists, 19.

Of the 232 seats thus disposed of the Ministerialists, or rather the Conservatives, have gained six, including Stockton, Middlesex and Leicester, and the Liberal seven, including Gloucester, Grantham, Northampton, Swanscombe, Hastings and South Wolverhampton. Increased Conservative majorities are especially noticeable in London and Lancashire.

Almost all the London divisions were polled yesterday.

So far from Mr. Henry Labouchere losing his seat in consequence of his correspondence with Mr. Kruger, Northampton is now represented by two Liberals. Mr. Labouchere, however, did not head the poll, although he secured a heavy vote.

A few Scottish constituencies have been polled. All show that the Liberals are holding their own in Scotland. Among the interesting new Liberal members is Mr. Henry Norman, of the London Daily Chronicle, who was elected member for Wolverhampton.

Upstairs scenes occurred in the Bermondsey division of Southwark, London, last evening, partly owing to the disappointment felt at the inability of Mr. Winston Churchill, the newly elected member for Oldham to make a speech he had promised. Mr. Churchill wired that Mr. Balfour had "Commenced" him to speak at Stockport. Mr. Henry J. C. Cust, former editor of the Pall Mall Gazette understood to speak in Mr. Churchill's place, but with a very good reception, was obliged to abandon the attempt, and was assisted and untended, the meeting breaking up in confusion.

#### WILLIAMSPORT, PA. FIRE.

Williamsport, Pa., October 2.—A. m.—Shortly after midnight fire broke out in the large shoe shop of J. E. Dayton & Co., and at 2 o'clock this morning was not under control. The plant will be a total loss. The factory and contents are valued at \$300,000. Adjoining property is in imminent danger of being burned.

#### THE LADIES.

The pleasant effect and perfect safety with which ladies may use Syrup of Figs, under all conditions, makes it the favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co. printed near the bottom of the package. For sale by all druggists.

## CHAMPION'S TRIAL

Will Occur at Special Session of Court Beginning October 30.

Alfred, October 2.—Judge Andrew P. Wiswall of the Supreme court, in an interview today stated that the trial of George H. Champion would commence at an adjourned session of the court to open on October 30. Champion is charged with murdering George W. Goodwin, Elsie M. Horne, Fred Bertsch and Scott K. Goodwin at West Newfield, on June 11. The Champion case will take up the entire special session.

George S. Haley and B. F. Claves of Biddeford, Champion's attorneys, held a consultation with the prisoner this afternoon. Mr. Haley has just come into the case, taking the place of ex-Mayor Hamilton of Biddeford, who died recently.

The most important matter taken by the court today was the case against George Reynolds and Frederick Le Ross, charged with assault on Peter Martin of Biddeford with intent to kill. At 12.30 the jury went out to consider the evidence. The jury returned a verdict of guilty with intent to kill in each case. The two men will be sentenced later.

## ANOTHER TIE.

Boston and Brooklyn Break Even Again.

Boston, October 2.—Today's game was called at the end of the 8th on account of darkness, the score standing 7 to 7. Both teams played snappy, progressive ball. Kelly was put out of the game for kicking in the sixth inning, Jennings taking his place. Attendance 2000. Score: Boston, 0 3 0 0 2 2 0 0—7 Brooklyn, 1 1 0 3 0 2 0 1—7

## MERROW PITCHED GREAT BALL.

Philadelphia, October 2.—Merrow of the New York team pitched a great game today and the home team's hits were few and scattered. During the game Lajoie was hit by a pitched ball and Delehanty hurt his arm in throwing. Both were forced to retire from the game. Attendance 1,635. Score: New York, 1 2 0 0 3 0 0 0—6 Philadelphia, 0 3 0 0 0 0 0 0—2

## CHICAGO IN GREAT FORM.

Chicago, October 2.—Chicago played in great form today and shut out St. Louis. Calahan pitched excellent ball and did not allow a hit until the seventh inning when two of three hits were registered. One more hit was made in the ninth. Score: Chicago, 0 0 0 0 0 0 0 1 x—3 St. Louis, 0 0 0 0 0 0 0 0—0

## RACES AT NASHUA.

Nashua, N. H., October 2.—The fall race meet at the Nashua Driving park opened this afternoon with a fair attendance. Three events were run upon the card. In the first race, the 3:30 pace, Blue Boy, sold a favorite and had many backers. The first heat was won by Warren B., by a scant neck. The second heat was declared a dead heat. Warren B. took the next two heats easily.

In the 2:35 trot, Tannierine started a favorite, but George H. Wilkes proved the better horse, taking the race in straight heat.

The last event was the 2:35 pace, but on account of darkness after three heats had been trotted, was postponed until tomorrow.

## DEMENTED MAN SHOOTS PRIEST.

Boston, October 2.—John Gleason, a man who is supposed to be demented, shot and seriously wounded Rev. Lawrence P. McCarthy, rector of the Roman Catholic church of The Most Holy Redeemer of East Boston, at the parochial residence last night. McCarthy, who was in a large calibre revolver took effect in the pastor's back. Although the wound inflicted is a serious one, it is the belief of the attending surgeons that the bullet can be extracted and that the priest will recover.

Gleason was captured near the scene of the shooting and is locked up in the East Boston police station. Gleason is about 50 years of age.

The condition of the Rev. Mr. McCarthy was reported late tonight to be much improved.

Gleason is charged with assault with intent to kill and will be given a hearing tomorrow.

## LEWISTON MAN WON.

Chicago, October 2.—At Tattersalls tonight Billy Stiff of Chicago and Dick O'Brien of Lewiston, Me., met at catch weights, O'Brien winning an easily earned victory. O'Brien did all the leading and landed repeatedly. Stiff was apparently afraid of his opponent to the loudly expressed disapproval of the crowd.

## RESULTS OF ENGLISH ELECTIONS.

London, October 2.—2.33 p. m.—Up to this hour the total number of members of Parliament elected is 779, as follows: Ministerialists, 145; Liberals, 16; Nationalists, 13.

The Nationalists elected include Mr. William Redmond, (East Clare), and Mr. James Daly, (South Monaghan).

## JOSIE COBB'S DEATH.

Lewiston Paper Liaras Some Facts In Connection With It.

The Lewiston Journal says it has learned that Josie Cobb, the young woman whose body was found in the Androscoggin, did not die of alcoholism or drowning, but was strangled. The dead girl's sister Grace made the following statement in answer to questions by a Journal reporter:

"Do you know of any man with whom at any time she had trouble that would make you suspicious of him now this thing has happened?"

"Yes, we know a man who only a few weeks ago attacked Jessie and she fought him off. He left her with these words: 'The next time I meet you I will kill you.'"

Jessie was working at the time in Sabatis and had gone to a neighbor's for a pail of milk. She was returning alone and the road led through a piece of woods. Suddenly and without warning a man stepped from the shadows beside the road, seized her and forced her to her knees.

She screamed and he placed a hand over her mouth. Jessie was an unusually strong girl and she managed to struggle away from the assailant long enough to scream again for help. Then the man stepped to the girl and said:

"Speak of this to anyone and the next time I see you I will kill you."

"Have you any idea who this man was," asked the Journal man.

"Jessie told me whom she suspected he was. It was so dark she could not see his face, but from his voice, build and height, she told me she was willing to swear he was a man who formerly kept company with her."

And the man's motive, if he was the man, was revenge, because Jessie Cobb would not send him money after he had disgraced himself in her eyes and the eyes of the world.

Five years ago Jessie was working in a town not 25 miles from Lewiston and there received the attentions of a certain man who always appeared a decent enough sort of a fellow. Her folks never saw him but from what Jessie wrote and told on visits they had grown to think a lot of each other. Then came the awakening. An old man was waylaid near his home in the woods and robbed and beaten high to death. And the man who was arrested and convicted for that crime was the one who was keeping company with Jessie Cobb.

Naturally after his guilt was proved she tried to forget about him, but he would not let her. He kept writing her from prison asking for money and these letters she did not answer. The Cobb family did not know that this man is out of jail, but if he is free they feel that he should be seen and inquired of relative to Jessie Cobb.

## NEW ADVERTISEMENTS.

# MORSE'S YELLOW DOCK

## Bladder and Kidneys Inflamed.

No one but the sufferer can imagine the pain and discomfort of this dread trouble. It is impossible to perform any work while your back aches as though it would break. Note how often you feel the necessity of passing water, and note also its character when it comes, full of deposits of a polluting nature, and as dangerous as can be if you allow this condition to remain uncorrected. MORSE'S YELLOW DOCK will do you good. It will regulate and inspire the proper action of the secretive functions and remove the danger of the deadly Bright's disease, gall stones and kindred complaints. It is a pure herb medicine of over fifty years standing, a household remedy of your forefathers, a safe, sure cure for all ailments of this nature. Hundreds of testimonials like this one:

"Dear Sirs—Having a desire to inform the public what a great benefit your Morse's Yellow Dock has been to me, I wish to say that I have been troubled very much with inflammation of the Bladder and Kidneys for 15 years, so much so that I have been obliged to relieve the bladder as many as eight or ten times in one night. I have taken Morse's Yellow Dock since February last, and I am now better in health than I ever was in my life. I consider Morse's Yellow Dock one of the greatest blessings on earth, and would have it at almost any cost." JOHN S. AUSTIN, 215 South Main Street, Providence, R. I.

## LINCOLN FAIR OPENS.

Promises To Be Best in Society's History.

(SPECIAL TO THE PRESS.)

Damariscotta, October 2.—The 44th annual fair of the Lincoln County Agricultural and Horticultural society opened today under the most favorable weather and will continue three days. The fair promises to exceed any previous one in its history, and special efforts have been made to make it a success in every particular. The races have been well filled for the last two days. Special attraction such as five yoke of steers, well trained and driven by a girl of ten, and numerous other features cannot fail to please all who attend. The side show attraction is larger than any past year, also the fruit and stock are very plentiful. If the weather continues it will not doubt be a grand success financially.

Two deer have already been brought into market today, one was shot at South Newscote, and the other in Edgecomb. E. F. Merrill purchased both and has them on exhibition. They are very plentiful in this vicinity.

## WOODFORDS.

Workmen were engaged yesterday in repairing a cave-in under the tracks of the Portland railroad company on Forest avenue. It became necessary during part of the day to transfer the cars to the out-bound track to enable the cars to pass the point in safety. It will take a day or so to complete the repairs.

Mr. John F. Woods, clerk at F. B. Estes's grocery store, is enjoying a two weeks' vacation in Boston and vicinity. The latter part of his vacation will be spent at Poland Springs.

The Deering Coal and Wood company is to rebuild their stable which was damaged some two weeks ago, by fire.

An amateur dramatic club was formed Monday evening at the home of Mr. W. A. Wheeler on Glenwood avenue. A committee was appointed to draft by-laws, etc., and perfect plans for the future of the organization.

A meeting of the members of the Woodfords Universalist church is to be held Thursday evening at 7.30 o'clock at the home of Mr. J. H. Files, Woodfords street.

Mr. Chas. M. Legrow, Nevens street, spent a few days of last week at East Auburn as the guest of Mr. Caleb R. Marsh and family, formerly of Nevens street. Mr. Marsh is now quite successfully located on a large farm in East Auburn.

Mr. Allen, residing on Nevens street, is ill at his home as a result of a bad strain sustained by him several days ago. Mr. Allen is bookkeeper for King and Dexter, the Portland hardware dealers, and wrenched his side by stepping hastily from a moving electric car. For a day or so the strain did not appear to be very severe, but it now seems that his spine has been affected.

Rocky Hill lodge, Knights of Pythias will confer the rank of esquire at the

meeting of Thursday night on two candidates. Homing day is to be observed and an effort made to secure a large attendance for the occasion. Refreshments are to be served at the conclusion of the working of the ranks. The rank staff of the lodge held a practice drill Monday evening to perfect the work of the first and third ranks. Considerable work is expected during the winter months, as a list of about 15 applicants for the ranks of knighthood are in waiting for election and the conferring of ranks.

## YARMOUTH.

Mrs. Angler Cleaves arrived home yesterday from an extended visit at the home of her father in Iowa.

Rev. Charles G. Holyoke of North Edgcomb, has recently been the guest of his sister, Mrs. Enos True.

Mr. Frank Bucknam, the local druggist has sold his yacht Hazard to Mr. J. Richardson Parson, who is to have the yacht hauled in and housed for the winter.

A meeting of the pupils of the Yarmouth High school was held on Monday for the purpose of taking the preliminary steps in the direction of forming a debating society. A committee was appointed to draft the constitution and by-laws.

The Junior Christian Endeavor society connected with the First Parish (congregational) church has elected the following officers for the ensuing term: President, Meda Crane; vice president, Constance Freeman; secretary, Helen Pendleton; treasurer, Elden Barbour.

A reception was tendered the new members of the Philological society Monday evening at North Yarmouth academy. During the evening the following programme was carried out: Address of welcome, President Charles D. Crane, Jr.; remarks by Rev. B. P. Snow, Arthur Dunning and Rev. C. D. Crane, Miss Julia Winslow and Miss Ida Seabury entertained by readings. Refreshments were served during the evening.

## TWO MEN PROBABLY DROWNED.

Bangor, October 2.—Harry Harper and James Crawford, two Bangor men who have been employed at McLeod & Dudley's lumbering operations at Foley pond on the North branch, have been missing since Sunday and it is feared that they were drowned on that day while canoeing in the lake.

According to the report received in Bangor on Tuesday the men went canoeing in a craft which was old and entirely unfit for service despite the warnings of persons who know of the unseaworthiness of the boat. When they failed to return at evening, fears were at once entertained for their safety and a searching party was made up to ascertain their whereabouts. A party went out on the lake and were rewarded with finding, at some distance from the shore, the canoe in which the missing men set out, floating overturned.

Crawford's age is thought to be about 18 years, while Harper is several years older. Both were unmarried.

## THE ANTI-CLARK DEMOCRATS.

Butte, Mont., October 2.—The Independent Democratic state convention which met here today was the outgrowth of the ballot at Helena during the Democratic convention in which the Clark people secured control. Gov. Robert B. Smith was both temporary and permanent chairman. His speech attacked Senator Clark. The resolution affirmed the principles and policies of the Kansas City platform; and endorsed Bryan and Stevenson. The lieutenant governor is denounced for appointing a United States Senator during the governor's absence from the state.

When nomination were reached the Presidential electors named by the Democratic convention were endorsed. Thomas Hogan, Populist secretary of state, was unanimously nominated for governor. C. F. Kelley was named for Congress. Joseph E. Merzimal was nominated for lieutenant-governor.

## AN ENGLISH REVERSE.

Durban, October 2.—In consequence of the Boers capturing a convoy of Natal volunteers between DeJaagers drift and Blood river, burning several wagons and capturing the escort, the intended home going of the Natal volunteers has been indefinitely postponed.

This has caused a painful impression throughout the colony.

## KITCHENER TO REMAIN.

London, October 3.—"Sir Redvers Buller," says the Daily Mail's correspondent at Pietermaritzburg, "will return to England, I hear, with Lord Roberts, and Lord Kitchener will remain in the chief command in South Africa."

It is

Gives for Health  
Lydia E. Pinkham

**Mrs. Watson tells all suffering women how she was cured and advises them to follow her example. Here is her first letter to Mrs. Pinkham:**

(PUBLISHED BY PERMISSION.)

March 15, 1899.

"TO MRS. PINKHAM, LYNN, MASS.:

"DEAR MADAM:—I am suffering from inflammation of the ovaries and womb, and have been for eighteen months. I have a continual pain and soreness in my back and side. I am only free from pain when lying down or sitting in an easy chair. When I stand I suffer with severe pain in my side and back. I believe my troubles were caused by over-work and lifting some years ago.

"Life is a drag to me, and I sometimes feel like giving up ever being a well woman; have become careless and unconcerned about everything. I am in bed now. I have had several doctors, but they did me but little good. "Lydia E. Pinkham's Vegetable Compound has been recommended to me by a friend, and I have made up my mind to give it fair trial.

"I write this letter with the hope of hearing from you in regard to my case"—MRS. S. J. WATSON, Hampton, Va.

**Mrs. Pinkham's advice was promptly received by Mrs. Watson and a few months later she writes as follows:**

(PUBLISHED BY PERMISSION.)

November 27, 1899.

"DEAR MRS. PINKHAM:—I feel it my duty to acknowledge to you the benefit that Lydia E. Pinkham's Vegetable Compound has done for me.

"I had been suffering with female troubles for some time, could walk but a short distance, had terrible bearing-down pains in lower part of my bowels, backache, and pain in ovary. I used your medicine for four months and was so much better that I could walk three times the distance that I could before.

"I am to-day in better health than I have been for more than two years, and I know it is all due to Lydia E. Pinkham's Vegetable Compound.

"I recommend your advice and medicine to all women who suffer."—MRS. S. J. WATSON, Hampton, Va.

**Mrs. Watson's letters prove that Mrs. Pinkham's free advice is always forthcoming on request and that it is a sure guide to health. These letters are but a drop in the ocean of evidence proving that Lydia E. Pinkham's Vegetable Compound CURES the ills of women.**

No other medicine in the world has received such widespread and unqualified endorsement.

No other medicine has such a record of cures of female troubles or such hosts of grateful friends.

**Do not be persuaded that any other medicine is just as good. Any dealer who suggests something else has no interest in your case. He is seeking a larger profit.**

Follow the record of this medicine and remember that these thousands of cures of women whose letters are constantly printed in this paper were not brought about by "something else," but by

Presidential Election, Tues., Nov. 6.

REPUBLICAN NOMINATIONS.

For President,

**William McKinley**  
Of Ohio.

For Vice President,

**Theodore Roosevelt**  
Of New York.

FOR PRESIDENTIAL ELECTORS.

At Large—Joseph O. Smith of Skowhegan;  
George F. Westcott of Portland.  
First Dist.—Charles F. Libby of Portland.  
Second Dist.—James W. Wadsworth of Bath.  
Third Dist.—Fred Atwood of Waterville.  
Fourth Dist.—Almon H. Fogg of Houlton.

It is understood that the suit of Mr. Bates against Mr. Rounds may be carried to the Supreme Court of the United States as it involves a question of great magnitude.

The Democrats of Connecticut are trying to keep the party together by conducting a campaign entirely on state issues. This is an exceedingly difficult thing to do in the midst of a national election, and that it will prove an unqualified success is very doubtful. National issues will creep in in spite of all efforts to keep them out, and the chances of the state ticket will inevitably be affected by them.

Mr. B. C. Jordan in a communication to the Lewiston Journal suggests that a commission be appointed by the next Legislature to investigate the working of the prohibitory law and report. Such a commission is not needed. Everybody knows perfectly well how it has been working for the past quarter of a century. A commission appointed to discover some way to make it work better might perhaps be of some use.

Of course the aldermen will not make one rule for policemen and another for firemen. As they hold after deliberation that repeated intoxication in gross form does not disqualify a man from making arrests and acting as the guardian of the property and lives of citizens, they can hardly hold that a man is disqualified for holding a pipe or running an engine at a fire because he occasionally takes a drink. To be consistent they must treat drunkenness in any or all departments of the government as a slight indiscretion not to be dealt with seriously.

Mr. Oswald Ottendorfer, a Democrat and editor and proprietor of the New York Staats-Zeitung, the organ of the Germans of the Empire state, says in a letter to the New York Tribune, that the best idea as to Bryan is to be gained by reading his letter of acceptance, and that convinces Mr. Ottendorfer that Bryan has not a drop of Democratic blood in his veins, but is a Populist pure and simple, with as great a leaning toward 16 to one as ever, though trying to hide it under imperialism. He sent the silver plank to Kansas City, insisted upon its adoption as a part of the platform, compelled the Democratic party to accept it, and by his action in that matter assumed the part of dictator. "Danger of McKinleyism" says Mr. Ottendorfer, "will not be felt for years and may be averted, but the unfortunate consequences which would follow the election of Bryan would be upon us immediately."

The Hon. George Fred Williams has returned from the West full of Bryan enthusiasm and confident that the Nebraska will be elected. Impartial observers, that is men who are seeking only for the facts, fail to find any of the indications which have so inspired Mr. Williams. The New York Herald which has made a canvass of the country for the sake of ascertaining the drift reports nothing encouraging for Mr. Bryan, but very much of the other kind. It can find no reason to think that there is any doubt of McKinley's carrying New York, New Jersey, or Connecticut in the East, or any of the states in the Middle West which he carried in 1886, except Indiana, which is close and doubtful, as always a month before election. Of the four upper Southern states carried by McKinley four years ago, it finds Delaware and West Virginia inclining the same way again, while Maryland and Kentucky are reported more likely to go for Bryan this time. Washington, on the Pacific coast, Wyoming in the Rockies, and South Dakota and Kansas in the Missouri river valley, all of which were for Bryan in 1886, seem to be against him now, while his hold upon two other mountain states, Montana and Idaho, is considered doubtful. This division allots 208 of the 447 electoral votes to McKinley, and 168 to Bryan, with the 31 from Indiana, Montana, and Idaho doubtful. Furthermore the betting men who are governed purely by cold-blooded

commercialism, fail to discover any of the Bryan rainbows which Mr. Williams has been chasing. They are still ready to offer two to one and better on McKinley's election.

## CAUSES OF THE STRIKE.

Mr. Henry Loomis Nelson, who has been in the anthracite region examining into the strike, gives a very different account of its origin and its causes from what has been appearing in the so called yellow journals. Mr. Nelson is a competent observer, and an honest one too. While not denying that the miners have grievances, and that they make complaints, the principal one being that they are charged too much for power, he alleges that these grievances and these complaints had really little or nothing to do with the strike. That he attributes solely to the machinations of President Mitchell and the United Mine Workers. In the first place Mr. Nelson shows that the charge that the operators refused to treat with the miners, except as individuals, is misleading. They have been willing to meet their employees singly or in a body, or any association fairly representative of them. They have refused to recognize the United Mine Workers because it was not an association of that character. The United Mine Workers are an association or union of bituminous coal miners. President Mitchell, the head of it, was a bituminous miner, and so were all the members of its governing board with one exception. One member had had some experience in anthracite coal mining, but not much, and he had little standing among the anthracite miners. This union has been dominating the bituminous mines for some time. It rules both the operators and the miners. Nobody not a member of it can work in a bituminous mine, for if the operators hire such an one the members of the union go on a strike immediately and compel the shutting down of the mine. While it dictates to the operators it tyrannizes over its members. If anyone of them objects to an assessment levied by the local president he is threatened with expulsion, and if he persists the threat is carried out with the result that the offender is deprived of work and becomes an outcast in that region.

Mr. Nelson asserts that all the trouble in the anthracite region has sprung from an ambition on the part of President Mitchell and the other chiefs of the United Mine Workers to dominate the anthracite region as completely as they have dominated the bituminous region. They entered the anthracite field some months ago, and began the agitation. At first they met nothing but rebuffs, but they gradually got hold of the most ignorant part of the miners—the Poles and Hungarians—and got them into the order. They had to put out some causes of complaint, and the character of them showed that they were utterly unfamiliar with the conditions in the anthracite region. For instance, they complained of the company store and demanded its abolition. As matter of fact there are no company stores owned, managed or controlled by the great corporations. The law forbids it. Some individuals own company stores, but Mr. Nelson thinks these are a blessing to the miners. The company doctor was another of their grievances. This so-called company doctor is maintained in remote regions by contributions from the miners, and they could hardly get along without him. The complaint which most completely betrayed their ignorance of the conditions in the anthracite region were those relating to the scale of pay. The union demanded one scale of pay in all the mines. This, while all right in the bituminous region, would result in gross injustice and inequality in the anthracite region, because there is great difference in the character of the veins, some of them being easily worked, and some of them with great difficulty. This difference has been evened up by a different scale of pay, so that the miners at work on the difficult veins earn as much as those who were employed on the easy ones. A single scale would give the latter large wages and cut down the former's to a very low figure.

From personal conversation with the men Mr. Nelson ascertained that the most intelligent ones were at heart opposed to the strike. They had some complaints, but not one of the English or Welsh miners would have left work because of them. They were intimidated by the threats of the men who joined the union, mostly Slavs. It was not so much threats of violence that affected them as the fear that they would be stigmatized as "scabs." To be known as a "scab" in the mining region is the deepest disgrace. It not only affects the man to whom it is applied, but it extends to his wife and children, and disgraces and ostracizes them. The threat to proclaim them as "scabs" completely cowed the men who were opposed to the strike, notwithstanding they were in the large majority, and drove them into idleness, though down in their hearts they were anxious to continue at work.

Mr. Nelson claims that the condition of the miners has been grossly misrepresented by the "yellow" papers. Tumble down hovels have been photographed as typical homes of the miners, and pictures of women carrying wash boilers filled with coal on their heads have been paraded to give the impression that women were employed in the mines contrary to law. As matter of fact not a single woman works in the mines, and the women who had wash boilers on their heads were carrying coal which they had picked out of the culm heap, a privilege which the operators accord to the poor people in the vicinity. "Taking shrewd advantage of a presidential campaign for his purpose," declares Mr. Nelson, "Mitchell has undertaken to bring the coal business of America under the control of his organization. In order to accomplish his object he has tried to dictate the relations that shall exist between employers and employed in a business of which he is ignorant. With the aid of foreigners, few of whom speak our language, he has driven tens of thousands of miners from their daily employment, and denied them the right to earn a liv-

ing. He has threatened the country with high prices for fuel, and, in consequence, the poor with misery and suffering. He has driven some good men out of the country, and others out of this region to the soft-coal fields of the West. In a word, according to Mr. Nelson, the tyranny the miners are suffering from is not the tyranny of capital, but the tyranny of their own union and its managers inspired by an ambition to dominate both the operators and the miners and practically take the whole business of coal mining into their own hands.

## CURRENT COMMENT.

## A NEW ISSUE.

(Albany Journal.)  
Mr. Bryan has evolved another "issue." In one of the sixteen versions of his one speech, which he delivered on Saturday he suddenly exclaimed, apropos of nothing: "No broken-down prices will ever entice a daughter of mine across the ocean." It can help in the determination on the part of Mr. Bryan's doubtable, but obviously his plan of conduct of his domestic affairs is not of public importance and has nothing even remotely to do with the questions that are involved in this campaign. Mr. Bryan must be short of legitimate campaign material.

## THE PREDOMINANT ISSUE.

(Lewiston Journal.)  
The predominant issue of American politics today—outside of the presidential—is the reform of the caucus. We shall not cure political evils by voting a bad ticket and getting a worse ticket. We shall cure the evil, if at all, by putting the caucus under the laws of elections. The Australian caucus law, registration as in secondary elections and long caucuses as in the general elections are important. But the reform of the caucus is not a part of the order of providence. But the reform will come quite the same after the taxpayers have suffered long enough to discover the real sources of misgovernment in the division of the world, and in the union of the flesh and the devil.

## RECKLESS GENEROSITY.

(Boston Herald.)  
Perhaps the most marked examples of generosity by called out by the Galveston calamity are furnished by the ladies of Chicago, who have been contributing their husbands' trousers and other apparel to the clothing collection with such increasing and popularity that many of the husbands have been obliged to rush to the relief bureau to reclaim some of their wives' generous gifts. Meanwhile, the contributions of female apparel are not so abundant as they might be.

## PERSONAL AND PECULIAR.

Judge Miller of Mercer County, Pa., visited the county fair the other day, and, seeing a big wheel of fortune, took an axe and smashed it to pieces. The other operators of gambling devices departed immediately. Judge Miller says if the local authorities won't stop gambling, he will.

Victor Scheffel's "Trumpeter of Sackengien" is perhaps the most popular of all German stories. In a recent feuilleton Paul Heyse relates how this story was written. He met Scheffel on the island of Capri in 1882. At that time Scheffel had not quite made up his mind whether he would become a poet or a poet. He began writing the "Trumpeter"—a story of the Black Forest—and read it chapter by chapter to Heyse, who did not care much for it as a love story, but admired its humor and some of its characters. He never dreamed that it would become a famous book.

## Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness cured by our method. Sent for circulars, free.

## WHITE LOGIC.

DWIN FORREST was once drilling a stupid "super." In despair Forrest exclaimed: "Can't you say it as I do?" "No," said the man; "if I could, would I be working for \$5.00 a week?" If you asked a cheap yellow soap to do the work of Ivory Soap the reply might well be: "If I could, would I sell for half as much?" Ivory Soap, being pure, costs money, but not more than a pure soap has to cost.

## MUSIC AND DRAMA.

## JAMES J. JEFFRIES.

Numerous admirers will have an opportunity to see him in this city in the capacity of an actor, for he is booked to appear at the Jefferson next Saturday night in a new American play entitled "A Man From the West," written by Clay M. Greene. The piece deals with life in the far West and is said to be a most elaborate stage production. The cast includes besides James J. Jeffries several well known and talented actors.

## FAUST.

From wherever Lewis Morrison's "Faust" has been seen this season, unanimous praises about its gorgeousness and splendor are heard. "Beautiful beyond the power of words," it is pronounced. As a matter of fact, it is no more thoroughly embellished and handsomely presented than during any of its former seasons and those who have witnessed it year after year, always finding it surpassing expectations, will this season witness the grandest and most elaborate presentation it has ever had. The scenery and all effects are entirely new, the company has been especially selected and is said to be better in every respect than any other seen in connection with the play and there is no doubt that its coming presentation in this city tonight will long be remembered as a notable event.

## HOW LILLIAN BLAUVELT MADE HER FIRST BIG SUCCESS.

Lillian Blauvelt, the American soprano, who will appear at the music festival this week, after a year's absence from this country, tells the story of an appearance at the beginning of her career, which had much to do with the making of her fortune.

It was to sing at a concert of the Orpheus club of Philadelphia. The club had engaged Mrs. Nordica for this concert, and at the last moment she was taken ill; by the time she had notified Mr. Wolfson, who had made the engagement for her, it was too late to get any of the stars of the opera to take her place. Mr. Wolfson called on me at my home, but I was enjoying myself at the opera; some one of my family told him this. He rushed to the Metropolitan opera house, found me seated near the stage, but how he did it I don't know, for the house was packed. He called me into the lobby and without giving me any information had a coupe take us to the Pennsylvania depot. There we were met by my sister, who was carrying a large box. When on the train he told me where I was to sing, but nothing else. There was no time for a rehearsal when we arrived, and imagine how I must have looked for I had dressed on the train, which to me seemed to be going about 100 miles an hour in place of 35 or 40. At any rate I sang at the concert, but did not know whose place I had filled until after I had finished my last number. Had I known it before, it is doubtful if I would have attempted such a thing, as I, just out of my teens, filling the place of a woman whose artistic merit is the talk of two continents. But you know, that its one of the chances that you get seldom in a lifetime. Fate placed it before me and I am thankful that I accepted it. Many such chances have I had since, both in this country and abroad, but I met them with the same determination as I did my first one, and in many of them have had my best successes.

## NOTES.

Sparkling with wit in every line, yet mingled with romance to excite its rivalry. Broadhurst's latest farce, "The House That Jack Built," was given its first metropolitan production in St. Paul, Sept. 10. The first night patrons at the Metropolitan were delighted with what New York is awaiting with anticipation of no little pleasure.

Scores of pretty girls clad handsomely and dancing daintily are one of the many splendid features of Chas. H. Yale's operatic trick spectacle "The Evil Eye," which this season comes with all new scenery, mechanical effects and accessories, and will be under the management of Sidney R. Ellis. The Russian Cafe Ecoutrique, the Dutch grape pickers, ballet, the Human Windmill, the Ladies' Brass Band and the Electric Ballet and the Great Phases Troupe are among the novelties offered.

"Lost River" was produced at the Hy-

perion theatre, New Haven, on Tuesday night, Sept. 25, and after two nights at Springfield, Mass., will open at the 14th St. Theatre, N. Y., on Oct. 1, for an extended engagement. Joseph Arthur's latest play depicts in dramatic form the life of the quaint natives of Southern Indiana, along the curious Lost river, and by contrast with the fashionable visitors to the spring at West Baden.

Henry Jewett and his company, including W. J. LeMoine, Frank Bangs, George Woodward, William Hazeltine, Walt Hitchcock, R. J. McCreane, Judith Hahnaway, Gertrude Bennett, Mabel Dickey and Ada Deaves, have gone to Boston to complete rehearsals for "The Choir Invisible," which will open at the Park theatre on October 1, for an extended engagement.

## MACHINE AGENT MISSING.

Also Some Clothing Belonging to Another Man in Brown St. House.

Yesterday afternoon a man giving his name as Perkins, of about 35 years of age and fairly well dressed, engaged a room of Mrs. Strout, 12 Brown street, and said for it in advance. He said that he was an agent of the White Sewing Machine Co. and that he expected to remain in Portland for several days. In the evening he left the house and has not been seen since. With his departure are also missing a coat, vest and an overcoat which belonged to Joseph M. Speer who has a room in the house. The police were notified and are making efforts to find the stranger.

## CHAIRMAN ALLAN RESIGNS.

The following explains itself: Mr. Frank I. Moore, Sec. Republican City Com., Dear Sir—I hereby tender to you my resignation as Chairman of the Republican City Committee, of Portland. Inasmuch, however, as our Presidential election takes place November 6th, and there is no time to properly reorganize, I desire said resignation to take effect November 9th. Will you kindly call a meeting of the committee as soon after the Presidential election as possible, for the purpose of reorganizing said committee. I am

Very Truly Yours,  
GEO. H. ALAN, LAN.  
Portland, Me., Oct. 2, 1900.

## FIRE DEPARTMENT CASES.

There was much talk yesterday about the city building regarding the cases reported to the city council by the committee on fire department Monday night. It seems that the committee heard the evidence in the two cases against the engine-men on the afternoon of Monday and did not conclude in time to prepare any sort of a case for the city council. Just what will be done in these two cases no one seems to know. Chief Eldredge and the members of the board of engineers have nothing to say about the matter. The committee on fire department is equally reticent. It was said yesterday that the engineers will make a fight against the charges which both of them are said to deny to be true. The matter has created no end of talk and some excitement is likely to result from these matters.

MISCELLANEOUS.

# A Soldier's Life

A life of hardship and exposure, and the dangers from disease are as great as from shell and bullet. Here is a story of a life that was saved:

"I enlisted in Company E, First Regiment New York Volunteers, at the beginning of the war with Spain. While on garrison duty at Honolulu I was stricken with malaria, which was complicated with kidney trouble. I was in the hospital twenty-one days, and when discharged my health was shattered."

"A week after I came out of the hospital the regiment sailed for home. I arrived home a perfect wreck, reduced in weight from 175 to 140 pounds."

"My mother is a strong believer in Dr. Williams' Pink Pills for Pale People and she persuaded me to take them. I did, and experienced a decided relief by the time I had taken three boxes. When I had taken five boxes I was entirely cured. The pain was all gone, my appetite was good and I had gained in flesh and strength. To-day I am a well man, thanks to Dr. Williams' Pink Pills."

FRANK A. SWEETZ, 872 Brinkerhoff Avenue, Utica, N. Y.

At all druggists or direct from Dr. Williams' Medicine Co., Schenectady, N. Y. Postpaid on receipt of price, 60c a box; 5 boxes \$2.50.

## SEBAGO SALMON WATERS.

By Charles Ross White. Pure crystal fountains where swallows dip, Where wild-fowl wheel and sever, Where deep within the Songo pool, The King of Salmon gather. They race from depths of Songo pool, They bend their bow and swim, And 'tween the blue wave, and the sky, They show one gleaming fin. Star flames, and meteors, they flash, In sylph-like forms they sweep, Like shooting stars they cleave the wave, And sparkle as they leap. A higher marvel than the stars, Within these deep waters gather, They swirl and flash and dart and gleam, In bright and stormy weather. O the story of their wondrous wiles, And the way we played the winning, While northern lakes grim locked in ice, The salmon reels are singing. Naples, Maine.

## FREEPORT FAIR.

Opened Tuesday With Splendid Weather.

The Hall Exhibits Never Looked So Well.

Track Events of Un-usual Interest.

Fred Wins 2.50 Race and Nelmah Takes 2.29.

Freeport took her turn yesterday on the round of annual fairs and was favored with most glorious weather, just the kind the managers and the visitors would have chosen had the matter been left to them. There was a good sized attendance and, of course, the first place to inspect was the town hall where the exhibits were displayed. The hall never looked prettier than it did yesterday, thanks to the personal supervision of B. Frank Dennison in charge who was assisted by a number of ladies whose excellent taste was manifest on every side.

Extending the whole length of the room, and in its center was a table devoted to specimens of apples, and a notable collection of them, including over 150 separate exhibits which attracted a good deal of attention.

One side of the hall was used for the contributions from the ladies in the form of quilts, sofa pillows, fine crochet work, etc., and in this collection perhaps the most noteworthy exhibits were the old pieces of hand made lace which had been in Freeport families since 1838 or 1839. There were many other antiques. There was a ladies' hair comb which was more than 135 years old; a little dress made in 1838; plates, tureens, etc., which were in existence before the eighteenth century was ushered in. All these were very interesting features and it is hardly necessary to say that the vegetable world was represented with that array of pumpkins, potatoes, bruses of corn, etc., without which a fair would be incomplete.

An exhibit of cut flowers and plants by Lucy A. Chandler merits special mention and is quite in keeping with the high standard which she has shown in Lawton for the past ten years. Home trades materially help out in the appearance of the hall and the useful and dainty articles of various kinds which the dealers of Freeport have sent make the showcases very attractive and besides them Yarmouth and Pownal store keepers have lent a helping hand.

## AT THE TRACK.

After an inspection of the hall, interest naturally centers about the track some distance off and situated in one of Freeport's most picturesque spots. The historic site presented yesterday a most animated appearance, and round about were many spectators, in grand stand, open field, etc., while long lines of carriage were just behind the fence. The only exhibits on the grounds were cattle and poultry. These were not numerous, but made up in quality what perhaps was lacking in quantity. There were the usual stands for fruit, pop corn, etc., and the most noteworthy sideshow was the fat woman from Yarmouth who weighs 491½ pounds at 37 years of age while as a baby she tipped the scales at only 4¼ pounds. She has a masculine beard and chatted very pleasantly with all who viewed her and asked them to feel of her arm that they might be satisfied that "it was all there in human flesh and blood." A tent for a variety show has been pitched but the talent yesterday failed to appear.

There is no disguising the fact that after all is said the track events are the big drawing card nowadays at our fall fairs and when the bell was sounded for the first race interest was keen. The well known and fair starter from Brunswick, Isaiah R. Morrill, soon after one o'clock climbed into the judges' stand and with him were Addison Buck of Scarborough, Jerome Nichols of Lewiston, Dr. C. H. Leighton of Westbrook who officiated as judges with C. P. Grafton of Portland and N. W. Fogg of Freeport for time-keepers. Two events were on the card and a good field of horses were entered in the 2.50 class and the 2.29 class. Not much time was lost in scoring and the veterans who held the reins showed a keen sporting instinct and treated each other with fairness which won the admiration of the observers. The first heat in the 2.50 class brought out the mettle of Handsome Ben and Topeka who made a pretty race and came down the home stretch neck and neck. There had been a good deal of breaking for the horses had not been steadied, notably so Fred and at times it looked like a running race in regular procession form. In the second heat Huntoon held his fast stepper right down to work and took the heat. The animal continued in good form for the rest of the afternoon winning the next two heats and the race. At the start for the third heat and just as the horses had been given the word "Go" Ernestine created a sort of hubbub and there was a mix up of snickers. Matters, however, soon straightened themselves out without injury to anyone and the heat went on. In the 2.29 class Nelmah had the field at his mercy and while the race was a pretty one and worth looking at it was quite evident to which horse the purse was bound to go as the summary below will show.

## TODAY'S EVENTS.

At 10 a. m. there will be a slow race and at 11 a. m. a purse will be offered for gentlemen's driving horses.

The countrymen's race, which was called a dead heat yesterday, and created much fun with the drivers in grotesquely amusing costumes will be trotted again and there will be trots in the 2.38 and the 2.24 classes.

## A PYTHIAN FEAST.

A great deal of interest is being manifested in the reception to be given to the Supreme Representatives Geo. M. Hanson, Fred Emery Beane and Edward C. Reynolds by the Portland, Me., Past Chancellors' Association tonight at 8 p. m., at K. of P. hall. As the representatives are knights of high standing in the order and excellent speakers there is no question but what it will be an occasion of much importance to the members of the order who attend.

The members of Bramhall lodge, No. 3, Presumptive Valley lodge, No. 4, Munjoy lodge, No. 6, Pine Tree lodge, No. 11, Oriental lodge, No. 17, Dirigo lodge, No. 21, Ivanhoe lodge, No. 25, Westbrook lodge, No. 27, Westcott lodge, No. 33, Longfellow lodge, No. 43, Bayard lodge, No. 44, Rocky Hill lodge, No. 451, Nonesuch lodge, No. 57, Trinity lodge, No. 64, Piscataqua lodge, No. 65 and Cumberland lodge, No. 6, are expected to be present at the meeting as well as all members of the order who may be in the city and partake of this veritable Pythian feast.

## PRICE OF MILK GOES UP.

The price of milk was advanced to seven cents a quart on Monday and in some localities the price is eight cents. The reasons given for the advance are:

First—The scarcity of hay has raised the price of that commodity and correspondingly high prices for common and cotton seed meal make it imperative for the milk dealer to obtain more for the milk he has to sell.

Second—The output of creamery butter received from the Western creameries increases daily and the prices charged for that article are so low that it is impossible for the owners of stock in the East to make butter and sell it in competition with the Western brand.

Third—As this is the season of the year when cows obtain little nourishment in the pastures, more grain has to be given them and even then they will not give as much milk as in the summer months.

## PUBLIC WORKS DEPARTMENT.

Monday street department crews finished sidewalk work on Washington avenue and Walnut street, together with sidewalk work on Elm street, between Congress and Cumberland. Yesterday they laid new walks on Mayo street and Franklin street. A new catch basin is being set on the corner of Paris and Portland streets.

The cement recently used in paving work has proved so satisfactory that its permanent adoption by the department is probable. It is found that when used a trench opened in the pavement will not cause sagging of the surface though the gravel caves away from it.

## U. S. DISTRICT COURT.

Petitions in bankruptcy have been filed by Henry H. Tibbets, Greene and John Thomas, Lewiston. In the District court yesterday, Judge Webb gave a hearing on the petition in bankruptcy filed against John P. Sculre & Co. by the Eastern Trust and Banking company, the Phoenix National bank of Hartford and John Cassidy of Bangor. No evidence was presented and Judge Webb ordered the dismissal of the petition.

## BODY NOT IDENTIFIED.

The body of the man found last week on the Cape shore was buried Monday in the Forest City cemetery. No one appeared to claim the body and its identity is still unknown. Various suggestions have been made as to who the man was, but none of them have been right. It is not probable that the identity of the man will ever be discovered.

## A Deep Mystery.

It is a mystery why women endure Backache, Headache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizziness when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kidney troubles," writes Mrs. Phoebe Cherley, of Peterson, Ia., "and a lame back pained me so I could not dress myself, but Electric Bitters wholly cured me, and, although 75 years old, I now am able to do all my housework." It overcomes Constipation, Improves Appetite, gives perfect health. Only 50c at H. P. S. Gould, 577 Congress street, drug store.

## A DEMOCRATIC INCIDENT.

Mr. Rounds Scored by  
Mr. Bates.

The Ex-Alderman Demanded Protec-  
tion of the Court.

Outcome of Election  
Day Controversy.

Chairman of Democratic City  
Committee Loses His Temper.

There was a large gathering in the municipal court yesterday morning to hear the action of trespass brought against Edgar E. Rounds by Chairman Samuel L. Bates of the Democratic city committee. This action grew out of the trouble which occurred in ward three polling place on the morning of the last election. It will be remembered that Mr. Bates posted in this ward room a notice offering a reward for detection of persons attempting to influence voters. Mr. Rounds tore this notice down whereupon Mr. Bates put another one up which was also torn down. Out of this grew Mr. Bates' action against Mr. Rounds for trespass.

When Mr. Bates came to make his argument he used such language in speaking of Mr. Rounds that there ensued a very dramatic incident.

City Clerk Edwin L. Dyer appeared for Mr. Rounds and Mr. Bates represented himself. In his opening Mr. Bates became somewhat excited and characterized the acts of which the defendant was alleged to be guilty as the "cowardly acts of a bully and a thug." He was reminded by Judge Hill that his personal opinion of the defendant was not pertinent to the case on trial.

Mr. Bates called himself to the stand as his first witness. He said that on election day he was in Ward 3 as the lawful representative of the Democratic party and had reason to believe that bribery was being resorted to with voters. Therefore he purchased for five cents a piece of cardboard and wrote on it a notice offering \$50 reward for the detection of any person so engaged and posted it, first ascertaining that Warden Staples had no objection to such action. Shortly Mr. Rounds discovered the placard and, growing red in the face, made a rush for it and tore it down. He posted another and again the Ward 3 leader laid it low, this time tearing it into fragments. He next hired a painter to execute similar notices which were posted and remained undisturbed.

Ex-Chairman Levi Greenleaf of the Democratic city committee was called upon by Mr. Bates and corroborated his testimony relative to the posting and tearing down of the notices of which he said he was an eye witness.

"What were you doing in Ward 3?" inquired Mr. Dyer.

"Oh, a legitimate errand, I assure you," responded the witness.

The plaintiff rested, and Mr. Dyer opened for the defense, begging the pardon of the court for engrossing its attention with a matter involving a nickel. He claimed that Mr. Bates' notice was posted without the assent of the ward and that as a constable of the city Mr. Rounds had a right to tear down a document disfiguring the walls of a public building.

Mr. Rounds was the first witness for the defense. He said his first warning of prospective trouble in the ward was a "big piece" in the papers and the next the notice posted on the ward-room wall. Some voters objected to it as an insult, and he asked the warden if he gave permission to have it posted. The warden replied that he did not and assented to a query whether he would like to have it taken down.

"That doesn't matter here," sharply interrupted Mr. Bates.

"What business is it of yours?" the witness responded. "I'm telling this story."

"It may be well to continue the examination by questions of counsel," remarked Judge Hill, and hereafter the witness' flood of eloquence was perceptibly diminished. He said he tore down the notice merely because as a constable he thought it his duty to protect a public building from being disfigured.

Mr. Bates announced that he had no questions to ask Mr. Rounds, and the audience settled back with sighs of disappointment.

George S. Staples, warden of Ward 3 testified that he had given Mr. Bates no authority to post any placard on election day.

Superintendent of Streets William F. Morse, election clerk of the ward, attested Mr. Rounds' election as constable. Here both sides rested. Mr. Dyer summed up briefly for the defense and then ensued one of the most dramatic scenes ever seen in a local court room.

Mr. Bates began argument in his own behalf, speaking in a low even voice. But as he progressed his tones rose higher and higher in his delivery of a scathing denunciation of the defendant.

Gradually turning from the court he faced Mr. Rounds, who sat in the rear of the court room, and pointing his finger at the ex-alderman, he ironically commented upon the "patriotic fervor of the constable," which led him to destroy two signs and then when three more had been posted to sneak quietly away. "This is Edgar E. Rounds, the noble, high minded constable," he remarked.

"Please address yourself to me. You are not arguing to the defendant or the audience," admonished Judge Hill.

Several times in the course of his argument Mr. Bates was warned by the court to be more circumspect in his remarks, but paid little heed to the admonition. The climax came when he declared that the defendant was a "low, dirty, cowardly cur." At these remarks Mr. Rounds rose from his seat and rushed toward the bench with upraised hand, excitedly declaring: "I've got some rights here. I demand the protection of the court."

He was ordered back to his seat by Judge Hill, who scored Mr. Bates on his unprofessional conduct, and warned him that repetition would lead to his being fined for contempt of court.

"I know this is a partisan court," the attorney hotly declared "but I can maintain my rights."

At the conclusion of the trial Judge Hill announced his decision for the defense.

The case has been appealed.

## BUSINESS AND PLEASURE.

A Pleasing Combination Programme  
For Y. M. C. A. Members.

Arrangements are being made at the Y. M. C. A. for a busy season this fall and winter and it is expected that a great deal of work will be accomplished before next spring. In the educational line classes are to be organized in book-keeping, penmanship and arithmetic. This will enable young men who wish to better their condition in life to study evenings, not interfering with their daily work. Each of these classes is conditional upon an enrollment of at least ten men. In addition to the membership fee a small fee will be charged. The class in penmanship will be under the direction of Mr. R. E. Rowe, who has most successfully conducted a similar class for the last four years. This class will meet every Monday evening at 8 o'clock, beginning October 8. The class in bookkeeping will be taught by Mr. A. L. Lyford of Gray's Business College, and will meet every Thursday evening at 8 o'clock beginning October 11. Mr. Lyford will also teach the classes in arithmetic, these classes meeting at 9 o'clock every Thursday evening, beginning October 11.

The Literary society will meet every Friday evening at 8 o'clock, beginning October 13. Live topics will be debated from time to time and an excellent opportunity will be afforded for the study and practice of parliamentary law. At the first meeting the members will decide upon the form of organization.

The Camera club will hold meetings at stated times.

The classes in the gymnasium are being made up and the first of next month will be divided into elementary, intermediate and advanced squads, receiving work according to their ability. There will be a grand rally of gymnasium members October 25, when bowling, basketball, athletic and gymnastic teams will be chosen to compete against each other during the season. The bowling alleys have been thoroughly renovated and are in excellent condition.

Tomorrow evening an apple party will be held in the gymnasium. There will be apple races, bobbing for apples and an apple eating contest to see who can devour the most apples in a stated time. Secretary Garland attended the West Oxford County fair which was held at Fryeburg last week and bought two barrels of prize apples which will be contested for tomorrow evening. There are about 55 varieties of apples in this lot.

## SUBJECT FOR GOOD BON FIRE.

There is a prospect that the boys living on Munjoy hill will have a good time one of these nights. The old Curtis house which now stands on land belonging to the city, has been vacated and the windows and all that is valuable about it have been removed. It now remains to get rid of the shell and Park Commissioner Smith says that about as good a way to do this as any would, in his opinion, be to send a fire engine down there and set the old house on fire. It would be a fitting celebration of McKinley's victory to have such a bon fire, but probably Mr. Smith being a good Democrat would not like to have the celebration occur in this way.

Action will also be taken to bring about the vacating of the Pierce house on the Eastern Promenade and as soon as it is vacated, this section of the promenade will be evened off and put into good shape.

## THEY GO TO FAIRFIELD.

Engine 3 of Portland got to Fairfield this morning to become the guests of Engine 3 of that town. The Fairfield men are very friendly to Engine 3 of Portland. Eight years ago the Portland company were at Bangor at a firemen's muster and had drawn a fine position to play. The Fairfield men had a very poor position, one which compelled them to either to pull out of the contest or lose the last train for home. The Portland men, in this emergency, withdrew and gave the Fairfield men their chance. This was a generous thing to do and since then the Portland and Fairfield men have been very friendly and have entertained one another several times. About 30 men go to Fairfield this morning.

## RECEPTION TO NEW PASTOR.

On Monday evening at the residence of Mr. and Mrs. John W. Gaskill, 24 Montreuil street, a pleasant reception was given in honor of Rev. W. C. Brown of Eden-ton, N. C., who has been sent to Portland to become the pastor of the A. M. E. Zion church. The exercises of the evening were very interesting. Among the prominent guests present were Revs. Wiley of Boston and Lane, pastor of the Abyssinian church. The former presented Mr. Brown to the company. Mr. Brown assured his friends that he had come to this city in the name of God and as a friend to the people.

Refreshments were served.

## ENDORSED JUDGE PEABODY.

Unanimous Action of the Cumberland  
Bar Yesterday Morning.

Yesterday morning a largely attended meeting of the Cumberland Bar was held, Hon. Henry B. Cleaves presiding. There were present many of the leading members of the Bar, and the meeting was earnest and enthusiastic in behalf of the business for which it had been called. The following resolutions were presented by Hon. J. H. Drummond and they were adopted without a dissenting vote:

1.—The interests of their clientele in this great business center require the appointment of a resident of Portland as a justice of the Supreme Judicial court to succeed the late Hon. Thomas H. Haskell.

2.—For many years three of the judges of the court resided in this city but their absence while attending the terms of court in other counties, to which they were assigned, did not leave them sufficient time for the hearing of equity cases actually demanding their attention.

3.—But one judge now remains and he must be absent the greater part of the time so that it would be impossible for us to have hearings in equity without very unreasonable delay, and to urge earnestly the appointment of a resident of this city.

4.—And they respectfully recommended the appointment of Hon. Henry C. Peabody of Portland, as Associate Justice of the Supreme Judicial Court to fill the vacancy caused by the death of Hon. Thomas H. Haskell.

5.—That a copy of these resolutions be presented to Governor Powers in our behalf.

A committee consisting of Hon. Henry B. Cleaves, Hon. J. H. Drummond, Hon. J. W. Symonds, Clarence Hale, Esq., Henry W. Swasey, Esq., Hon. Seth L. Larabee and Robert T. Whitehouse, Esq., was chosen to wait on the governor and present the resolutions at the same time conveying to him the wishes of the members of the bar of Cumberland county.

## SHERIFFS RAID FREEPORT DRUG STORE.

Freeport had a fair yesterday and among the visitors to the town were Deputy Sheriffs Chute, Osborne and Gribben. Whether they were resolved with the warm hand or the marble heart, whether they were bent on pleasure and combined with it a little business may or may not be conjectured, but be this as it may they found it necessary to swoop down on the druggists of the town, for every one knows no open bars are permitted there, and gathered in from one firm, Thomas & Lunt, some hard stuff and a little beer.

## COUNCIL WILL PASS THE ORDER.

After a long discussion on Monday night the board of aldermen finally passed the order to purchase the Trask property near the Deering city farm, the buildings thereon to be made into a pest house. It was stated yesterday that the common council would, in all probability pass the order in concurrence next Monday evening as a majority of the councilmen favor the plan.

here go hand in hand. No woman who has once become the possessor of a Toilet Table would think of doing without it.

It has become a positive necessity to her. The glass is just the right height so that she may sit comfortably while arranging her hair, while the broad top and roomy drawers furnish a convenient place for all the dainty articles of her toilet.

Our line of these tables is very complete, including oak, mahogany, bird's eye maple, curly birch, mountain ash, etc. We mention just one—our No. 24. It is made of beautifully grained quarter sawed oak, finished dark. It has French bevelled mirror of good size, and a beautifully finished drawer. The legs have the correct graceful French curve.

When one considers that this is the purchase of a whole lifetime, our price of \$11.00 seems ridiculously low.

PORTLAND'S CHANCE.

An Opportunity for Some Active Work.

The City May Secure the Canadian Pacific Terminal.

Cold Storage a Political Issue.

Plan Outlined in Press Adopted as a National Issue.

It is about time that Portland people woke up to the fact that a great opportunity for the building up of Portland and for filling our harbor with big steamships all the year around is at hand and only requires active work and enterprise to bring about the one thing which this city has been dreaming about for years.

The PRESS is informed from men who are in a position to know what is going on in railroad circles, that it is a "toss up" with the Canadian Pacific railroad whether Portland or Boston will be made its entrepot for the great Northwest. The Boston and Maine railroad with all of its influence and power is endeavoring to secure this big business for Boston. It is in Boston that the Boston and Maine's largest stockholders are interested in real estate and in other ways and naturally they are throwing their strength for that city. But for all of this the Canadian Pacific officials look upon Portland favorably. They see that there is an opportunity here for the development of a great trans-Atlantic business. There are many miles of water front about the harbor proper and along the shores of Casco Bay within easy reach of the city which are available for docks and warehouses and this property is not held at the almost prohibitive figure at which it is valued in Boston.

It is a fact well known that at one time the Canadian Pacific railroad, that great trunk line which with the Grand Trunk stretches out through the Northwest, was on the point of coming to this city. Even plans for docks had been drawn and property for this road had been bonded. The connecting link was to be the Portland and Ogdensburg railroad. At a critical period in these negotiations the Canadian government stepped in and threatened to withdraw its subsidies from the Canadian Pacific if such a thing as coming to Portland was attempted. So the project was dropped but even to this day, so the PRESS is informed by a gentleman in Montreal in close touch with the railroad interests, the Canadian Pacific people are looking with longing eyes towards Portland.

The swinging of the Canadian Pacific business to Portland would be the making of this city. That this city has a great future before it is acknowledged by all who have been here. In late years the Grand Trunk railroad by its progressive American management has done much towards turning the eyes of the Canadian people to this city. They have seen the Grand Trunk business constantly increasing, the establishment of a summer line of steamships which are beginning to pay well and in the winter time the capacity of the Grand Trunk taxed to its utmost. All of this has come about in a very few years and has been the result of the shrewd foresight of one man, General Manager Hays of the Grand Trunk. He has seen the possibilities of Portland and has done all in his power to develop its business and to advertise its natural advantages. This has been done by him, not because he has any personal interest in the development of Portland, but because he sees here the very facilities for which Canada has long been looking.

The Canadian Pacific railroad has made it public that it is not well pleased with its Inter-Colonial connections and desires a change. The Boston and Maine railroad, quick to see the opportunity, has come forward and urged upon the Canadian Pacific the advantages of Boston. In spite of this the Canadian Pacific people are much impressed with the advantages of Portland and it now only remains for the wide awake business men of this city to take the matter in hand and by their influence bring about the selection of Portland as the entrepot for the great Northwest.

COLD STORAGE AN ISSUE.

In connection with this idea it may be interesting to the people of Portland to learn that the project outlined in the PRESS last summer of a giant cold storage system has been taken up in Canada as a political issue. The opposition party called the Conservative Liberals, headed by Sir Charles Tupper, are making a fight along this line. They are appealing to the farmers of Canada and holding out to them the advantages which would be afforded them by a national cold storage scheme. Sir Charles Tupper tells his constituents in a long article published in Saturday's issue of the Montreal Gazette that the party in power has not done as much to aid this cold storage scheme as it might have done. Because of the government's neglect of this industry Sir Charles Tupper charges that the farmers of the Dominion have suffered. He promises that if the Conservative Liberals are placed in power that their policy will be to give this cold storage plan such material aid that it will be a boon to the producers of the entire Northwest. He calls attention to the fact that the cold storage equipment of the steamers

engaged in the British-Canadian trade

are not modern and that the government has not insisted on having this equipment as up to date as is to be found on the ships engaged in the British-Australian trade. He points out the fact that the Tasmania apple growers, for example, are able by modern cold storage equipment of the ships engaged in the British trade to send their fruit to London a distance of seventeen thousand miles, crossing the equator and going through the Red Sea, one of the hottest voyages in the world and after all landing their fruit in the London markets in better condition than Canadian fruits which comes a much less distance. This is because of the superior cold storage equipment of the Australian ships.

As long ago as last June the PRESS fully outlined the giant cold storage scheme. It may be that Sir Charles Tupper has been reading the PRESS and has obtained some of his ideas of cold storage from the articles and interviews which have been published in this paper from time to time. At any rate he has followed the lines there laid down very closely. He advocates government protection and subsidy for the cold storage system, stating that branch stations for the conservation of produce and fruit should be established all over the Dominion and connected with the shipping-points with cold storage trains. He shows that eggs laid in Manitoba and chickens killed thousands of miles from the market in hot weather may be transported to the London consumers in the best of condition and to the manifest advantage of the producers.

This cold storage company which is to locate in Portland, has the promise of government assistance from the party now in power in Canada and its project is fast assuming tangible shape. In a few months this city will see a big cold storage plant built on modern plans and handling thousands of dollars worth of poultry, fruit, vegetables and other produce grown in the far away Northwest and intended for the British and Continental markets. Sir Charles Tupper's advocacy of this scheme only shows how important it is regarded by the Canadian people and proves that the Canadian government's policy of encouraging such industries is favorably regarded by the people of the Dominion.

In line with this plan it would not be impossible for a similar cold storage system to be built up in Maine. Our own Maine products are just as good as those of Canada. Our own farmers now living miles from the markets could raise and ship poultry, fruits and vegetables of all kinds for markets of the Old World as well as the farmers of Canada. A cold storage system in Maine would be a feeder to the plant which is to be erected here as a terminal for the Canadian system

and would make some of the ill-paying farms of this state of greater value than they are at present. Those who know say that by means of this cold storage system the farmers of Maine may avail themselves of the market prices of the old world and turn out a comfortable income from farms which have been abandoned as worthless. At any rate the people of Maine will do well to watch the Canadian system of encouraging such industries by granting them government concessions while they are in an infant state.

It is no small compliment which has been paid to the promoters of the cold storage scheme which the PRESS so long ago made public to have it adopted as the keynote of the political warfare now in progress in Canada.
